

Class dojo and the drop-in session to support parents are amazing.

We are happy that the work is both challenging and engaging. There is enough for them to complete

Thank you everyone, we really appreciate everything you all are doing.

The work is varied and engaging.

Lots of links and helpful information provided. Through class dojo can easily communicate

Teachers are doing an amazing job.

We found the online lessons very helpful. It keeps him focused on a schedule throughout the day.

I think it's great, my child is able to see her teacher and friends throughout the week. It gives her more drive when work is set by her teacher.

My children are really enjoying being able to connect with their teachers and classmates on the live lessons!

You are all doing a wonderful job thank you.

Support is there when needed.

I have nothing but praise.

I think all the teachers are doing an amazing job to support children and parents.

I feel the amount set is just the right balance without both student and parents feeling overwhelmed.

All support and encouragement from staff are appreciated.

The boys enjoy seeing their teachers on this day and it helps me understand their activity being able to listen to the class.

You are all doing a wonderful job thank you.

Support is there when needed.

I have nothing but praise.

I have been really impressed with the lessons and the communication

Yes, the teachers are doing a fantastic job!

Overall brilliant! This provides a good routine, and the children can see it is not only them at home it's their friends too.

They are really brilliant they support both my children, and they are able to ask for help and support if they don't understand and I actually am learning how to help them better via the lessons as I am only a short distance away so can hear everything.

I know what is going on and the communication is clear.

These really help to get my child motivated to carry on working during the day.

They are really helpful and love the interaction with the whole class.

It's nice they can see their class and feel like a school set for an hour.

Glad it is happening as I felt lost before.

The weekly newsletter is really good to receive, and I personally find Ms Bloomfield's words to be very positive and uplifting.

Communication is amazing.

*Thank you*
